

Arizona

(Jan. 20, 2021)

Even the directions were a bit shuffled this week. The games committee apologizes for the slightly mixed-up instruction. However most teams (having played this format before) surmised that taking only one of the par three scores on the back nine would have been too much of a gift.....and everyone knows that the games committee isn't THAT generous.

(Now, if that sounds familiar, this was copied from last year's game results since the directions from the pro-shop never got corrected. HOWEVER, this time, our illustrious pairings person, Karen Mahoney, DID (with awesome foresight) clearly show on the scorecard, exactly how many scores were to count on each hole. Kudos to you Karen, on the fantastic job you've done with pairings and scorecards each week.)

Team competition is always fun and congrats go out to the winning foursomes.
